General Information

The 12th Arab Conference on Astronomy and Space Science and the 7th Islamic Astronomical Conference are held on the 20th anniversary of the Arab Union for Astronomy and Space Sciences (AUASS), where the AUASS has rapidly grown and developed over the past years to include most of the Arab researchers in the fields of astronomy, astrophysics, space sciences and technologies. The AUASS members has surpassed 500 scientists and researchers in the various fields of astronomy & space science. The AUASS became one of the qualitative unions under the Council of Arab Economic Unity (a part of the Arab League). The AUASS is also a member of the International Astronomical Union (IAU).

Main Themes of the Conference:

Theme 1: Cosmology (theoretical and observational).
Theme 2: Astrophysics.
Theme 3: Search for Life in the Universe.
Theme 4: Astronomical Observatories and Instrumentation.
Theme 5: Solar Activity and Space Weather.
Theme 6: Satellites and Applications.
Theme 7: Celestial Mechanics, Spherical and Geodesy Astronomy.
Theme 8: Planetology and Astrogeology.
Theme 9: Astronomy & Space Science and the Society.
Theme 10: Archaeoastronomy and the Arab-Islamic History of Astronomy.
